

Alignment to Ohio Early Learning and Development Standards

Ohio's Early Learning and Development Standards in All Essential Domains of School Readiness (Birth – Age 5)

Introduction

In December 2011, Ohio was awarded the Race to the Top Early Learning Challenge Grant. To be awarded the funding, Ohio was required to have Early Learning and Development Standards in all Essential Domains of School Readiness, Birth to Age 5. These five domains included:

- Social and Emotional Development
- Physical Well-being and Motor Development
- Approaches Toward Learning
- Language and Literacy Development
- Cognition and General Knowledge

Ohio's Early Learning and Development Standards describe key concepts and skills that young children develop during the birth-to-five-year period. Their purpose is to support the development and well-being of young children and to foster their learning. The standards promote the understanding of early learning and development, provide a comprehensive and coherent set of expectations for children's development and learning, and guide the design and implementation of curriculum, assessment and instructional practices with young children.

The standards present a continuum of learning and development from birth to age five in each of the domains. Because the infant/toddler years are marked by rapid developmental change, the standards are divided into three meaningful transitional periods: Infants (birth to around 8 months), Young Toddlers (6 to around 18 months), and Older Toddlers (16 to around 36 months). The standards during the preschool years describe those developmental skills and concepts children should know and be able to do at the end of their preschool experience.

The Ohio Early Learning and Development Standards were created as part of a collaborative effort of state agencies serving young children including Ohio Department of Education, Ohio Department of Job and Family Services, Ohio Department of Health, Ohio Department of Mental Health, Ohio Department of Developmental Disabilities, and the Governor's Office of Health Transformation. The state agencies worked with national experts and writing teams made up of Ohio-based content experts and stakeholders to revise and expand the standards in the five developmental domains.

Ohio's revision of standards builds upon the strong set of existing standards in Ohio's Infant and Toddler Guidelines (for children birth to 36 months of age) and the Pre-Kindergarten Standards (for children ages 3 to 5). Ohio's Infant and Toddler Guidelines was the major source for the development of the infants' and toddlers' standards. Similarly, Ohio's Pre-Kindergarten Content Standards were revised

Ohio's Early Learning and Development Standards in All Essential Domains of School Readiness (Birth – Age 5)

and expanded in the Language and Literacy and Cognitive Development domains. The Cognition and General Knowledge standards were aligned with the kindergarten Common Core State Standards in English-Language Arts and Mathematics and Ohio's Revised Academic Content Standards in Science and Social Studies. Finally, the standards were reviewed and revised with particular attention to being appropriate for children with disabilities and for children with diverse cultural and linguistic backgrounds. Knowledge of the strengths and needs of each child is pertinent in order to implement differentiation strategies and culturally responsive pedagogy in a manner to help each child meet the standards.

Organization of the Standards

The standards within each domain are organized according to strands, the developmental or conceptual components within each domain. Each strand contains one or more topics, the area of focus within each strand, and the standard statements, those concepts and skills children should know and be able to do for the different age-groups. Some topics reflect learning and development across the birth-to-five continuum, with standards for all age levels: infants, young toddlers, older toddler, and Pre-K, while other topics pertain only to a specific age- period. For example, some knowledge and skills such as the ability to identify and describe shapes or skills related to social studies and science emerge in preschool. Topics that address those competencies include standards only at the Pre-K level. Other topics such as Self- Comforting and Social Identity have standards only at the infant-toddler levels, because these foundational skills developed during the early years lead to more specific competencies at the preschool level.

An Overview of the Domains

Social and Emotional Development. The standards for Social and Emotional development involve behaviors that reflect children's emotional growth and their growing ability to successfully navigate their social worlds through interactions with teachers and peers. These standards include a focus on children's developing abilities to regulate attention, emotions, and behavior, and to establish positive relationships with familiar adults and with peers. Research indicates that early skills of social competence and self-regulation are foundational to children's long-term academic and social success (National Research Council, 2008). Strands in the social and emotional domain are Self and Relationships.

Physical Well-Being and Motor Development Physical Well-Being and Motor Development standards address motor skills and health practices that are essential for children's overall development. These skills include the ability to use large and small muscles to produce movements, to touch, grasp and manipulate objects, and to engage in physical activity. These

standards also describe the development of health practices that become part of children's daily routines and healthy habits such as nutrition and self-help. These skills and behaviors play an important role in children's physical well-being and set children on a path

**Ohio's Early Learning and Development Standards in All Essential Domains of School Readiness
(Birth – Age 5)**

leading toward a healthy lifestyle. Healthy children are more likely to attend school, to be physically active, and to learn more effectively (Bluemenshine and others, 2008). The two strands in this domain are Motor Development and Physical Well-Being.

Approaches Toward Learning. Approaches Toward Learning centers on the foundational behaviors, dispositions, and attitudes that children bring to social interactions and learning experiences. It includes children's initiative and curiosity, and their motivation to participate in new and varied experiences and challenges. These behaviors are fundamental to children's ability to take advantage of learning opportunities, and to set, plan, and achieve goals for themselves. This domain also includes children's level of attention, engagement, and persistence as they do a variety of tasks. These factors are consistent predictors of academic success (Duncan et al., 2007). Finally, children's creativity, innovative thinking and flexibility of thought allow them to think about or use materials in unconventional ways, and to express thoughts, ideas and feelings in a variety of media. The standards in the domain Approaches Toward Learning are organized in the following strands: Initiative; Engagement and Persistence; and Creativity.

Language and Literacy. The standards for language and literacy reflect knowledge and skills fundamental to children's learning of language, reading and writing. Young children's language competencies pertain to their growing abilities to communicate effectively with adults and peers, to express themselves through language, and to use growing vocabularies and increasingly sophisticated language structures. Early literacy skills include children's developing concepts of print, comprehension of age-appropriate text, phonological awareness, and letter recognition. Research has identified early skills of language and literacy as important predictors for children's school readiness, and their later capacity to learn academic knowledge (National Early Literacy Panel, 2008). The Language and Literacy domain consists of the following strands: Listening and Speaking, Reading and Writing.

Cognition and General Knowledge. This domain includes those cognitive processes that enable all other learning to take place, as well as children's knowledge of the social and physical world. This domain is organized into the strand, Cognitive Skills and those concepts and skills in sub- domains, Mathematics, Social Studies and Science.

Cognitive Skills. This strand refers to the underlying cognitive mechanisms, skills and processes that support learning and reasoning across domains, including the development of memory, symbolic thought, reasoning and problem-solving.

- **Mathematics.** The sub-domain of mathematics encompasses the mathematical concepts and skills that children develop during the birth-to-five-year period, including children's developing understanding of number and quantity, number relationships, and basic algebraic concepts. A meta-analysis conducted by Duncan and colleagues (2007) suggests that specific early math skills such as knowledge of numbers and ordinality are important predictors of later achievement in math and reading. The Mathematics sub- domain also addresses children's developing knowledge of key attributes of objects, including size and shape,

**Ohio's Early Learning and Development Standards in All Essential Domains of School Readiness
(Birth – Age 5)**

and the way objects fit, are positioned, and move in space. The standards in the domain of mathematics are organized in four strands: Number Sense, Number Relationships and Operations; Algebra; Measurement and Data; and Geometry.

- **Social Studies.** The sub-domain of social studies includes basic skills and competencies that set the foundation for learning about concepts of social science. At a young age, children begin to develop their social identity and to think about their place in the social world. As they grow, they develop an increased awareness of their personal histories and heritage, and a sense of time and place. Through everyday interactions with children and adults, they develop an appreciation for rights and responsibility within a group, and how social rules help people in promoting safety and fairness (Mindes, 2005). Such competencies are described in the domain of Social Studies under the following strands: History; Geography; Government; and Economics.
- **Science.** This sub-domain focuses on children's curiosity to explore and learn about their environment. It includes behaviors of exploration and discovery, and fundamental conceptual development such as problem solving and cause and effect. These early behaviors develop into increasingly systematic inquiry skills, and the ability to observe, investigate and communicate about the natural environment, living things, and objects and materials (Gelman and Brenneman, 2004). Early competencies in science are organized in four key strands: Science Inquiry and Application; Earth and Space Science; Physical Science; and Life Science.

Ohio's early learning and development standards illuminate the breadth of learning and development from birth to kindergarten entry that strengthens school readiness. An understanding of learning and development in each domain guides programs and teachers as they plan developmentally appropriate learning opportunities and environments for young children. In particular, teachers can use an understanding of standards to focus on the kinds of interactions and environments that support, for example, language development or approaches toward learning. While the standards facilitate a focused look at young children's learning in each domain, teachers and others responsible for the care and education of young children need to keep in mind that infants, toddlers, and preschool-age children learn holistically.

Moreover, social and emotional development stands at the center of their learning. For example, as an infant or toddler builds security in a relationship with a caring adult, that child is also learning to communicate with language and to use the relationship as a secure base for practicing new movement skills and building knowledge about the world through exploration. Likewise, as preschool-age children tell stories about family experiences they are expanding their self-awareness, using their growing cognitive capacity to remember the past, and practicing narrative skills. Such examples of integrated learning are endless. In addition to providing focused looks in each domain, the standards can help us see how learning occurs in different domains at the same time.

Teachers and others can use the standards as starting points for observing and understanding young children's learning and development. With each learning encounter teachers observe, they can refer to the standards and ask what knowledge and skills are the children gaining in the areas of language and literacy, cognition and general knowledge, social and emotional development, physical well-being and motor development, and approaches toward learning. Teachers can use their observations of integrated

**Ohio's Early Learning and Development Standards in All Essential Domains of School Readiness
(Birth – Age 5)**

learning to plan new learning encounters for young children and support the building of knowledge in all essential domains of school readiness.

Domain: Social and Emotional Development**

Strand: Self			
Topic: Awareness and Expression of Emotions			
Infants (Birth – 8 months)	Young Toddlers (6 – 18 months)	Older Toddlers (16 – 36 months)	Pre-Kindergarten (3 - 5 years)
Express a variety of emotions (contentment, distress, happiness, sadness, surprise, dislike, anger and fear) through facial expressions, gestures, movement and sounds.	Communicate emotions purposefully and intentionally, including complex emotions such as happiness, sadness, surprise, dislike, anger, and fear nonverbally and possibly with a few familiar words.	Show awareness of own emotion and uses nonverbal and/or verbal ways to express complex emotions such as pride, embarrassment, shame and guilt.	Recognize and identify own emotions and the emotions of others. Communicate a range of emotions in socially accepted ways.

Ohio's Early Learning and Development Standards in All Essential Domains of School Readiness
Domain: Social and Emotional Development

¹ In each lesson of TeachTown Social Skills, students are asked to identify a variety of emotions. Furthermore, students are asked to communicate emotions purposefully by identifying the cause of their emotions and the emotions of others. Specific target skills that address this strand include:

- Say Why You're Mad
- How to Cheer Yourself Up
- Say Why You're Sad
- Speak Up For Yourself
- Take Deep Breaths to Stay Calm
- Apologize When You Make a Mistake
- Stay Positive
- Comfort Sad Friends
- Compliment Your Friends
- Think About Others

² Each teacher-directed lesson in the TeachTown Social Skills curriculum encourages students to further explore and develop the skills needed to better understand the concept of self and others. Specifically, students are asked to identify the feelings, behaviors, wants and needs of the characters, their peers, and themselves in each target skill. Specific target skills that address this strand include:

- Respect Differences
- Think About Others

³ Throughout the TeachTown Social Skills curriculum students are taught self-comforting, self-regulating, and various coping strategies. Specific target skills that address this strand include:

- Stay Positive
- Comfort Sad Friends
- Making Up After a Fight
- Respecting Differences
- Think About Others
- How to Say No
- Tell the Truth
- Apologize When You Do Something Wrong
- How to Cheer Yourself Up
- Know When to Take a Break
- Say Why you're Sad
- Sometimes Friends Don't Want to Play
- Speak Up For Yourself
- Take Deep Breaths to Stay Calm
- Say Why You're Mad

⁴ Throughout the TeachTown Social Skills curriculum students are taught self-comforting, self-regulating, and various coping strategies. Specific target skills that address this strand include:

Ohio's Early Learning and Development Standards in All Essential Domains of School Readiness
Domain: Social and Emotional Development

- Stay Positive
- Comfort Sad Friends
- Making Up After a Fight
- Respecting Differences
- Think About Others
- How to Say No
- Tell the Truth
- Apologize When You Do Something Wrong
- How to Cheer Yourself Up
- Know When to Take a Break
- Say Why you're Sad
- Sometimes Friends Don't Want to Play
- Speak Up For Yourself
- Take Deep Breaths to Stay Calm
- Say Why You're Mad

⁵ Throughout the TeachTown Social Skills curriculum, students are asked to complete a variety of tasks and assignments. Additionally, students are encouraged to identify the feelings, wants, needs, and behaviors of themselves and others. Lessons encourage students to develop self-confidence, self-awareness and self-respect.

⁶ In each lesson, students interact with familiar adults (teachers, paraprofessionals, therapists, etc.) and peers in a variety of teacher-directed lessons and activities. Lessons and activities encourage generalization and it is recommended that lessons and activities are completed in a variety of settings and with a variety of individuals. Specific target skills that address this strand include:

- Listen When the Teacher Talks
- Sit When the Teacher Says
- How to Join Friends During Playtime
- Ask Before You Hug
- Respect Personal Space
- Ask an Adult for Help
- Make a Request
- Initiating a Conversation
- Help Solve a Problem
- Including Others
- Helping Others
- Comfort Sad Friends
- Compliment Your Friends
- Making Up After a Fight
- Think About Others

Ohio's Early Learning and Development Standards in All Essential Domains of School Readiness
Domain: Social and Emotional Development

⁷ In each lesson, students interact with familiar adults (teachers, paraprofessionals, therapists, etc.) and peers in a variety of teacher-directed lessons and activities. Lessons and activities encourage generalization and it is recommended that lessons and activities are completed in a variety of settings and with a variety of individuals. Specific target skills that address this strand include:

- Listen When the Teacher Talks
- Sit When the Teacher Says
- How to Join Friends During Playtime
- Ask Before You Hug
- Respect Personal Space
- Ask an Adult for Help
- Make a Request
- Initiating a Conversation
- Help Solve a Problem

- Compliment Your Friends
- Making Up After a Fight
- Think About Others

⁸ In each lesson, students interact with familiar adults (teachers, paraprofessionals, therapists, etc.) and peers in a variety of teacher-directed lessons and activities. Lessons and activities encourage generalization and it is recommended that lessons and activities are completed in a variety of settings and with a variety of individuals. Lessons encourage peer-to-peer learning and help students develop appropriate social skills. Specific target skills that address this strand include:

- Listen When the Teacher Talks
- Sit When the Teacher Says
- How to Join Friends During Playtime
- Ask Before You Hug
- Respect Personal Space
- Ask an Adult for Help
- Make a Request
- Initiating a Conversation
- Help Solve a Problem
- Including Others
- Helping Others
- Comfort Sad Friends
- Compliment Your Friends
- Making Up After a Fight

Ohio's Early Learning and Development Standards in All Essential Domains of School Readiness
Domain: Social and Emotional Development

- Think About Others

⁹ In each lesson of TeachTown Social Skills, students are asked to identify a variety of emotions. Students are taught to appropriately respond to their emotions and the emotions of others. Specific target skills that address this strand include:

- Say Why You're Mad
- How to Cheer Yourself Up
- Say Why You're Sad
- Speak Up For Yourself
- Take Deep Breaths to Stay Calm
- Apologize When You Make a Mistake
- Stay Positive
- Comfort Sad Friends
- Compliment Your Friends
- Think About Others

¹ Lessons in TeachTown Social Skills promote self-awareness and expression of emotions. In each lesson, students are encouraged to identify the emotions of characters in video-modeling episodes, characters social stories, and the emotions of their peers. Students are also encouraged to identify and reflect on their own emotions and how emotions affect their behavior. Specific target skills that address this strand include:

- How to Join Friends During Playtime
- It's More Fun to Share
- Respect Personal Space
- Ask and Adult for Help
- Make a Request
- Ask About Others Interests
- Ask a Friend for Help

² Embedded in each behavioral domain of TeachTown Social Skills are lessons that teach students to plan, act, and reflect on previous learning. Students are taught how to approach and respond to people based on the environment and how to act appropriately based on specific situations. Specific target skills that address this strand include:

- Ask Before Interrupting Play
- Play by the Rules
- Be a Good Listener
- How to Join Friends During Playtime
- It's more Fun to Share

Ohio's Early Learning and Development Standards in All Essential Domains of School Readiness
Domain: Approaches Toward Learning

- Take Turns with Toys
- Respond When You Are Greeted
- Take Deep Breaths to Stay Calm
- Know When to Take a Break
- Try Again When You Make a Mistake
- Initiating a Conversation
- Help Solve a Problem

³ In each lesson of TeachTown Social Skills, students are asked to participate in teacher-directed lessons that encourage students to increase participation and attention. Students are asked to follow along with video-modeling episodes, social stories, and attend to group lessons. Each lesson encourages peer-to-peer interactions and the development of appropriate social skills.

⁴ In each lesson of TeachTown Social Skills, students are asked to participate in teacher-directed lessons that encourage students to increase participation and persistence. Throughout the sequence of each target skills, students are asked to recall and reflect on effects and events and identify the cause and effect of different behaviors and situations. Specific target skills that address this strand include:

- Try Again When You Make a Mistake
- How to Stay Positive
- Helping Others
- Including Others
- Thinking About Others
- Continuing a Conversation

⁵ Each lesson of TeachTown Social Skills encourages making discoveries about oneself, others, and the environment. Embedded activities and related skills promote creativity and discovery in a positive, encouraging manner.

⁶ Lessons throughout the TeachTown Social Skills program encourage the expression of ideas and feelings through art. Students participate in individual and group activities that include drawing or acting out specific emotions, scenarios, or situations. Through these activities, students are encouraged to identify their feelings and the feelings of others in various activities and through a variety of media. In each target behavior, students are asked to identify the wants, needs, and feelings of themselves and others, and are asked to draw, create art, or complete graphic organizers recalling and reflecting on specific social scenarios.

This standard aligns to the TeachTown: Basics Curriculum

Ohio's Early Learning and Development Standards in All Essential Domains of School Readiness
Domain: Cognitive and General Knowledge

Strand: Cognitive Skills			
Topic: Memory			
Infants (Birth – 8 months)	Young Toddlers (6 – 18 months)	Older Toddlers (16 – 36 months)	Pre-Kindergarten (3 - 5 years)

Domain: Cognitive and General Knowledge

³ Each lesson of the TeachTown Social Skills curriculum encourages students to develop problem-solving and reasoning skills. Specific target skills that address this strand include:

- Ask Before Interrupting Play
- Be a good Listener
- How to Join Friends During Playtime
- Say Why You're Mad
- Sometimes Things Break by Accident
- Ask an Adult for Help
- How to Cheer Yourself Up
- Know When to Take a Break
- Say Why You're Sad
- Stay Calm When the Schedule Changes
- Take Deep Breaths to Stay Calm
- Try Again When You Make a Mistake
- Make a Request
- Wait to Enter a Conversation
- How to Say No
- Apologize When You Do Something Wrong
- Change Topics Politely
- Stay Positive
- Help Solve a Problem
- Ask a Friend for Help
- Helping Others
- Comfort Sad Friends
- Making Up After a Fight
- Think About Others

⁴ Each lesson in the TeachTown Social Skills curriculum promotes the development of appropriate social skills. Students are taught how to appropriately interact with their peers and classmates in a variety of activities embedded throughout each lesson.

⁵ Each lesson in the TeachTown Social Skills curriculum promotes the development of appropriate social skills. Students are taught how to follow the rules and how to interact with their peers appropriately.

⁶ Each lesson in the TeachTown Social Skills curriculum promotes the development of appropriate social skills. Lessons and activities encourage students to make choices and teach students how to appropriately access attention and request items. Students are also encouraged to communicate, interact, and share with familiar adults and peers in group activities in a variety of settings.
