

Research and Collaboration

OBSERVABLE PROPERTIES

Core Vocabulary

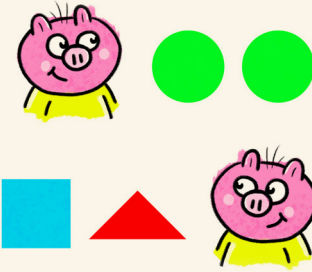

The focus skills word has an asterisk:

- Materials
- Color
- Texture

Prior to Instruction

Program student AAC devices with the “texture” words and “materials” words from Worksheet 4 that are needed for participating in the activity. Additionally, program a Yes/No response option for communicating with others about whether materials card forms an appropriate match with the texture label. Sample words and definitions include:

- Description words, like “soft and fluffy,” “rough,” “scratchy.”
- Material words, like “feather,” “burlap bag,” “sand paper.”
- Texture- The feel of a surface or material.
- Materials- The substance something is made from.

Learning Objectives

- Students will identify textures and materials.
- Students will match textures to materials.

Materials

- Student Worksheet 3: Newsletter and Comprehension (one per student and one for the teacher)
- Student Worksheet 4: Research and Collaborate (one per student and one for the teacher)
- T-Chart graphic organizer
